

GREENTV (GTV) DAO - Initial Disruptive Offering (IDO) Proposal

Executive Summary

Welcome to the GreenTV (GTV) DAO Initial Disruptive Offering (IDO) Green Paper. This document outlines the revolutionary vision of GREENTV DAO to leverage blockchain technology for environmental sustainability and philanthropy. The GTV Token lies at the core of this vision, serving as the gateway to a decentralized ecosystem dedicated to promoting environmental awareness, education, and action. GREENTV DAO is launching an Initial Disruptive Offering (IDO) for its native GTV Token, a fundamental component of the GTV decentralized autonomous organization (DAO). The IDO is a pivotal moment for GreenTV, as it seeks to revolutionize environmental impact through blockchain technology, by integrating a sustainable token economy into its ecosystem. This proposal is designed for investors to understand, participate, and benefit from the growth of the GreenTV platform and its commitment to ecological sustainability and philanthropy.

Tokenomics

- Total Supply: 1,000,000,000 GTV
- Distribution:
 - Initial Distribution (Private Sale/Presale): 30% = 300,000,000 GTV
 - Liquidity Pool: 20% = 200,000,000 GTV
 - Development and Team: 15% = 150,000,000 GTV
 - Marketing and Partnerships: 15% = 150,000,000 GTV
 - Community Incentives and Rewards: 10% = 100,000,000 GTV
 - Reserve Fund: 10% = 100,000,000 GTV

IDO Specifications

- Total Token Supply for IDO: 300,000,000 GTV
- GTV Token Price: \$0.10
- GTV Private Sale Token Price: \$0.05 (03/20/24 to 04/20/24)
- GTV Presale Token Price: \$0.08 (04/20/24 to 05/20/24)

100% GTV Token Distribution over 3 Years

- Quarterly Distributions Breakdown:
 - 1,000,000,000 GTV Total Distribution over 3 years = 33,333,333.33 GTV per year
 - 33,333,333.33 GTV per year / 4 Quarters = 8,333,333.33 GTV per quarter

8,333,333.33 GTV per quarter distributions:

- Funding Rounds: $7.5\% = 7.5/100 * 8,333,333.33 = 624,999.99975 \approx 625,000$ GTV
- Liquidity Pool: $5\% = 5/100 * 8,333,333.33 = 416,666.6665 \approx 416,667$ GTV
- Development and Team: $3.75\% = 3.75/100 * 8,333,333.33 = 312,499.999875 \approx 312,500$ GTV
- Marketing and Partnerships: $3.75\% = 3.75/100 * 8,333,333.33 = 312,499.999875 \approx 312,500$ GTV
- Community Incentives & Rewards: $2.5\% = 2.5/100 * 8,333,333.33 = 208,333.33225 \approx 208,333$ GTV
- Reserve Fund: $2.5\% = 2.5/100 * 8,333,333.33 = 208,333.33225 \approx 208,333$ GTV

Total Quarterly Distribution:

625,000 GTV (Funding Rounds) + 416,667 GTV (Liquidity Pool) + 312,500 GTV (Development and Team) + 312,500 GTV (Marketing and Partnerships) + 208,333 GTV (Community Incentives and Rewards) + 208,333 GTV (Reserve Fund) = 1,883,333 GTV

GreenTV Ecosystem Integration

The GTV DAO will work in harmony with the primary GreenTV platforms to ensure seamless utilization of the GTV Token throughout the network:

- **greentv.io:** The heart of GreenTV's online presence, offering a gateway to all information related to the platform's software engineering initiatives.
- **greentv.app:** A decentralized mobile application that serves as a streaming service, where content is stored on the blockchain, challenging the status quo and censorship.
- **greentv.news:** A dedicated platform for aggregating, creating and delivering the latest green news from all green sectors rewarding upvoted content contributors..
- **greentv.crypto:** The Web3 nerve center for the GreenTV community, greentv.crypto is an all-encompassing hub where token transactions, trading, buying, and selling occur seamlessly. It's also the primary forum for community-driven discussions, DAO governance voting, and the dissemination of resources on blockchain's role in environmental sustainability.
- **greentv.nft:** Environmentally-focused NFTs. GreenTV embraces the NFT movement with greentv.nft, a platform dedicated to promoting eco-friendly NFT creation and ownership. This initiative aligns with the environmental ethos of GreenTV, ensuring that the emerging NFT sector has a positive impact on the planet.
- **greentv.ai:** The greentv.ai domain operates as an AI incubator, creating innovative solutions to combat climate change through decentralization. It applies funds to tackle climate problems and supports the broader mission of GreenTV Master DAO.
- **greentv.games:** A visionary addition to the GreenTV ecosystem, greentv.games is poised to become a dynamic destination for both video game developers and players who are passionate about the environment. By offering a collection of immersive AR and VR games, this platform invites users to delve into 'greenworlds'—virtual spaces where the actions they take have a real-world impact on combating climate change. Leveraging decentralized blockchain technology, greentv.games not only incentivizes participation through gamification but also rewards users for their contributions to sustainability. It's a place where gaming transcends entertainment, becoming a force for good in the global fight against environmental challenges.
- **greentv.com:** As the official domain, greentv.com guides users to various GreenTV platforms, providing a comprehensive overview of the ecosystem and its diverse content offerings centered around sustainability and climate action.
- **greentv.wiki:** Greentv.wiki acts as an informational repository, hosting comprehensive data on GreenTV's initiatives, allowing for community education and knowledge sharing with a focus on environmental stewardship.
- **greentv.vip:** Greentv.vip offers premium access to various GreenTV services, events, or features, providing additional value and exclusivity for GTV token holders.

GTV Utility

- **Governance:** Token holders can actively participate in platform governance, influencing decisions related to development, upgrades, and strategic directions.
- **Exclusive Access:** Holders gain access to premium features, events, and services within the GREENTV platform.

Project Funding and Rewards

GreenTV aims to allocate a portion of its resources to support environmental projects proposed by community members, organizations, and partners. These projects may include initiatives related to conservation, renewable energy, waste management, eco-friendly technology, and more. Funding for projects will be distributed through transparent and accountable processes to ensure maximum impact and alignment with GreenTV's objectives.

Governance and Voting Rights

GTV token holders will have the opportunity to actively participate in platform governance through decentralized voting mechanisms. This ensures that the community has a say in key decisions such as development proposals, partnerships, and fund allocation, fostering a democratic and transparent ecosystem.

Roadmap to Success

1. **Launch of IDO:** Immediate priority is the successful launch and completion of the IDO, adhering to the projected soft and hard caps.
2. **Governance Council Formation:** Post-IDO, establishment of a Governance Council from the GTV token holder community to guide the ecosystem.
3. **Platform Enhancements:** Utilize funds for the continuous development and enhancement of GreenTV platforms; integrating AI, NFTs, and additional blockchain solutions.
4. **Community Growth:** Drive growth and engagement within the community via marketing initiatives and strategic partnerships

Conclusion

The GreenTV (GTV) DAO IDO represents a tangible opportunity for individuals to back a platform that's on the cutting edge of combining entertainment, environmental activism, and blockchain technology. By participating in the GTV IDO, members will not only contribute to the development of a robust platform dedicated to positive environmental change but will also share in its success through a well-structured tokenomics model.

Interested parties are encouraged to contact GreenTV for further details and to participate in this IDO. Together, we can build a sustainable future powered by blockchain.

For direct inquiries or to participate in the venture, please reach out at greentvstreamer@gmail.com or visit greentv.io.

Thank you,

GREENTV DAO

The logo for GreenTV, featuring the word "green" in a bold, green, blocky font with a white outline, followed by "tv" in a dark blue, blocky font with a white outline. The letters are stylized and have a slight shadow effect.
